

Summer of 2021

On-The-Farm Cover Crops & Soil Health Discussions

Protecting Groundwater, Building Soil Carbon & Biology and Relay Cropping Winter Camelina with Soybeans

KC & Sarah Betzold Farm

Date: September 14th, 2021 Time: 12:00 noon — 2:30 pm

Location: 13771 Cabot Ave Dundas, MN

Register here: <https://forms.gle/bo4qx39hc5FyzBSc6>

Learn about the conservation practices implemented on the Betzold Farm

Guest Speakers

- Saddle Butte Ag TJ Kartes: Interseeding cover crops in late summer
- UMN Extension Educator Anne Sawyer: What is "soil biology" - How does it impact soil health and crop production?
- Dakota County Staff Jill Trescott: Rice & Dakota County Groundwater Quantity & Quality
- UMN Agronomy Department Alex Hard: Integrating Winter Camelina into Cropping Systems

Free Meeting

Lunch Provided

*Please register to help us
plan for food*

Come and share ideas, hear from industry professionals and talk with farmers that are implementing conservation practices and increasing profitability.

Reduce soil erosion, reduce soil compaction, increase soil organic matter, improve soil infiltration

—> **INCREASE SOIL PRODUCTIVITY**
